

PROJECT CASE STUDY

Yealink

Conference Room Installation

**Wasagamack Urban Prevention Office
185 Sherbrook St., Winnipeg, MB**

Project Outline:

Design and install a flexible, high quality conference solution utilizing the Microsoft Teams platform. The client requirements included centralized Teams management and IP conference phone integration.

Installed Hardware:

The following hardware was installed to meet the project requirements:

- 1 - Hisense 65" 4K UHD LED TV's - Wall mounted
- Yealink MVC400 Microsoft Teams Room System
- Yealink CP935W Wireless IP Conference Phone

Project Notes:

- The Yealink MVC400 system includes the MTouch Console that provides complete system control from the meeting table.
- The system is powered by the MCore mini PC mounted behind the TV screen
- Audio and Video is handled by the Yealink Meetingbar 40 which combines the images from two 48MP lenses. It also features 2 built-in stereo speakers, 8x MEMS microphone array, and supports 2 additional expansion microphones*. The intelligent noise reduction technology provides a good audio experience.
- The Yealink CP935W IP conference phone is enhanced with the built-in 6-microphone array for voice pickup. Covering a range of 20-foot with 360° omnidirection, the phone is adequate to a deliver clear and natural voice conference experience.
